## MARINES LANDED.

Company From Cruiser Prairie  
Carried With Them Requi-  
sites For Camp Life.

## ALSO A NUMBER OF MACHINE GUNS

The Destination of the Marines is  
Said to Be Yavisa Up the  
San Miguel Gulf.

The News of This Movement South-  
ward From Panama Was Received  
With Keen Interest in Army  
Circles in Washington.

Colon, Dec. 15.—A company of marines from the United States cruiser Prairie was landed here Monday morning under the command of Capt. Smedley D. Butler and immediately started by train for Panama. The destination of the marines is said to be Yavisa, up the San Miguel gulf and Tuira river.

It is believed that the decision of the naval authorities is to station marines at Yavisa may possibly be owing to the reports that Colombian troops have been sent in that direction, but up to the present time there is no reason to believe that any large force is under orders to march on Panama from Cauca. The opinion seems to prevail that the few Colombian soldiers seen were probably scouts who were endeavoring to learn what preventive and protective measures were being taken by the republic of Panama and that it was their presence which gave rise to the exaggerated rumors of a speedy attack by Colombia on the isthmus. It is more likely that the movement of marines to Yavisa is in conformity with the policy of the naval authorities to concentrate forces at points which offer the best facilities for getting immediate information of any movement by Colombian troops towards Panama and at the same time of affording the marines some relief from their confinement to the ships. The marines carried with them all requisites for camp life and also a number of machine guns.

Washington, Dec. 15.—The news of the movement of marines southward from Panama, based as it was on the reported landing of Colombian troops in that part of the isthmus, was received with keen interest in army circles where there has been exhibited for some time a desire to participate with the navy in any military movements on the isthmus, the general staff gave the subject immediate attention. There was, however, no outcome in the shape of orders to troops, though the arrival here of Brig. Gen. Franklin Bell, superintendent of the general staff college at Leavenworth, was regarded as confirming the previous statements to the effect that the army is making ready to do its share at a moment's notice. Gen. Bell was in consultation with some of the members of the general staff during the afternoon.

Vallejo, Cal., Dec. 15.—The report that the "entire torpedo flotilla has been ordered to Panama" is not confirmed officially. So far the Perry and the Paul Jones are the only torpedo boats with orders to go to the isthmus. These two boats are now ready to leave for the lower bay of San Francisco, but await the arrival of some of the officers from the east. The cruiser New York is now on her way from Bremerton to San Francisco and may receive orders to go from there to the isthmus. Commandant McCalla and Naval Constructor Zahm were kept busy all Sunday supervising rush orders for the coaling of the Perry and the Paul Jones.

## CAUSE OF SCARLET FEVER.

It Is Determined That the Infection Is  
Produced By Protozoa.

Boston, Dec. 15.—Dr. Frank Burr Mallory, associate professor of pathology at Harvard, will Tuesday night present to the Boston Society of Medical Science important information as to the cause of scarlet fever. It is asserted he has definitely determined that the organism which produces the infection is by protozoa and the development of the disease is traced through the successive stages of the animal's growth.

## Refused the Injunction.

Trinidad, Col., Dec. 15.—Judge Northcott refused the injunction sought by the United Mine Workers to restrain the Victor Fuel Co. Its officers and agents from in any way interfering with union organizers who wish to visit its coal camps.

## To Reduce Expenses.

Susquehanna, Pa., Dec. 15.—To reduce expenses the shops on the Erie railway system were Monday evening closed until Monday, December 21. In the meantime nothing except urgent running repair work will be done.

## SUIT COMPROMISED.

Equitable Life Assurance Co. and the Whayne Heirs.

Louisville, Ky., Dec. 15.—Attorneys representing the Equitable Life Assurance Society of the United States, and the heirs of R. C. Whayne Monday compromised the suit brought to recover the full amount on life insurance policies amounting to \$120,000 held in the Equitable company. The company agreed to pay \$90,000 for a release from its obligations. The suit was placed on trial Monday. A similar suit against the Provident Life and Savings Co. resulted in a verdict for \$74,000 in favor of the heirs on Saturday last. Whayne was a merchant well-known, but of only moderate means, who at the time of his death carried policies amounting to \$270,000. He was found dead of a gunshot wound, his shotgun lying on one side of a barbed wire fence and the body on the other. The companies, in view of the fact that a large part of the insurance was taken out during the year preceding his death, contested, endeavoring to prove suicide and also misrepresentation as to the state of his health at the time the policies were issued.

## WHILE DELIRIOUS.

Eugene Strother Jumped to His Death  
From a Window.

Louisville, Ky., Dec. 15.—After a brief struggle with his trained nurse, while in a delirious condition, Eugene Strother, the son of John C. Strother, the attorney, and one of the best-known young men in the city, jumped from the third story window of his apartments in the St. James and died an hour later from the effects of the injuries received. Mr. Strother jumped from the window to the brick pavement below, a distance of nearly 75 feet.

## Court of Appeals' Decision Reversed.

Washington, Dec. 15.—The United States supreme court Monday decided the case of the Deposit Bank of Frankfort, Ky., vs. the City of Frankfort, in favor of the bank, thus reversing the Kentucky court of appeals. The case involved the right of the city to levy certain taxes under the Hewitt act, which the bank resisted.

**The Slot Machines Disappeared.**  
Lexington, Ky., Dec. 15.—Slot machines and petty gambling devices suddenly disappeared from every saloon in this city as if by magic. The grand jury is in session. Court instructions to that body gave orders to wipe them out and intimated he would call on the police force to aid in the work.

**Tobacco Factory Burned.**

Bowling Green, Ky., Dec. 15.—Fire Monday morning destroyed the local plant of the Kentucky Tobacco Co. The insurance is \$6,000. The loss is considerably more. The fire is believed to have been of incendiary origin. The fire commissioners will investigate.

**Engineer Dies of Heart Disease.**

Louisville, Ky., Dec. 15.—Fred Honaker, for 35 years an engineer on the Louisville & Nashville, was found dying in the railroad yards in East Louisville by his son John Monday morning. He died in five minutes of heart disease.

**Big Blaze in Louisville.**

Louisville, Ky., Dec. 15.—The plant of the Defiance Clothing Co., in Sixth street, was destroyed by fire. The fire was the work of an incendiary who had made two unsuccessful attempts during the past week. Loss \$60,000.

**Noel Gaines Mentioned.**

Lexington, Ky., Dec. 15.—Indications point toward the appointment of Noel Gaines, of Frankfort, as assistant adjutant general to succeed Percy Haley. It is announced that the appointment has been pledged.

**Kentucky Post Offices.**

Washington, Dec. 15.—The post office department Monday announced that the following Kentucky fourth-class post offices will be raised to the presidential grade January 1 next: Hodgenville and Pikeville.

**No Christmas Fireworks.**

Lewisburg, Ky., Dec. 15.—Because of trouble arising from the discharge of fireworks on the streets last Christmas the local merchants have agreed not to sell them this year. Each has posted a forfeit of \$25.

**His Life for a Horse.**

Paducah, Ky., Dec. 15.—Henry Blue was sentenced to serve a life term in prison for stealing a horse from Scott Overton, of this city, several nights ago. This was his third conviction for horse stealing.

Washington, Dec. 15.—The executive council of the American Federation of Labor directed President Gompers and Vice President Duncan to go to New York and endeavor to adjust the building trades' dispute there.

## COOPERS' STRIKE.

Employees at the Stock Yards in Chicago May Go Out in Sympathy.

## THE QUESTION TO BE VOTED UPON

Nothing But a Settlement of the Cooperers' Trouble on Acceptable Terms Can Prevent the Strike.

While the Men Are Preparing For a Walkout the Officers of the Union Are Endeavoring to Prevent It If Possible.

Chicago, Dec. 15.—Failing in their attempt to secure favorable terms for the striking cooperers, officials of the packing trades council Monday decided to go ahead with their plans for a general strike of the 30,000 stock yards employees. The question of ordering the strike will be voted on by the various unions this week. The move received approval at the meeting of the oleomargarine workers held Monday night.

The general strike question will be presented to the pork cellar men, packers and shippers and canning department employees Tuesday night. Wednesday night it will be considered by the sheep butchers, hide cellar men, soap workers, cattle butchers and elevator men and others. Thursday night it will be brought up at the meeting of the sausage makers. The officials of the council declared Monday that nothing but a settlement of the cooperers' strike on terms acceptable to the strikers can prevent a general strike.

While they are preparing for a walkout the officers of the union are endeavoring to avoid trouble if possible. Headed by Michael Donnelly, their international president, the representatives of employees called on the packers Monday. They discussed the demands of the cooperers and the packers declared that they were willing to pay 25 cents an hour. They stipulated, however, that what they term "light repair work" should be done by boys at the rate of 15 cents an hour. This latter demand of the packers led to the breaking off of the conference, the men declaring that it would mean that 60 of the 400 strikers would be thrown out of work. Another conference was arranged for Tuesday.

## WAGE REDUCTIONS.

About 90 Per Cent. of the U. S. Steel Corporation Employees Affected.

New York, Dec. 15.—The statement was made Monday by a leading official of the United States steel corporation that, beginning January 1, 1904, about 90 per cent. of the employees of the corporation will suffer wage reductions, ranging from five to twenty per cent. This reduction will affect about 150,000 workmen in the various grades of the subsidiary companies.

The remaining ten per cent. of employees are members of the Amalgamated Association of Iron, Steel and Tin Workers, whose wage schedule runs to July 1, 1904.

The finance committee of the steel corporation has, it is understood, under consideration the dismissal of many high salaries employees, in addition to those already discharged, but no statement on this point was forthcoming Monday.

## CLOSED TO UNION MEN.

A Long Fight Is Expected at the International Steel Co. Plant.

Chicago, Dec. 15.—Failure to agree on terms by which the strike of the Amalgamated Association of Iron, Steel and Tin Workers at the plant of the International Iron and Steel Co., in Indiana Harbor, could be settled the company Monday announced that it would have no further dealings with the association and the mills have closed to union men. A long fight is in prospect. Part of the plant is being worked with non-union men.

## BLAST FURNACE WORKERS.

Those at Sharon, Pa., Will Receive a Cut of 10 Per Cent. in Wages.

Sharon, Pa., Dec. 15.—Announcement was made that furnace workers and all other mechanics employed about the blast furnaces in the Shenango valley will receive a straight cut of wages on January 1 of ten per cent. After the new scale becomes effective the turn men will receive \$2 per day and laborers \$1.50. The workmen will probably accept the reduction. About 500 men in the valley will be affected.

## BILL FAVORABLY REPORTED.

Washington, Dec. 15.—The committee on insular affairs of the house Monday favorably reported a bill giving Porto Rico a delegate in congress.

## THE CUBAN BILL.

The Senate Spent the Day Discussing the Measure.

Washington, Dec. 15.—Senate—The senate spent the day on the Cuban bill, most of the time being occupied by Mr. Bailey (Tex.) in an elaborate argument against the constitutionality of the proceedings. He claimed that the treaty changing the revenue laws that was not first authorized by legislation originating in the house of representatives was valid. Mr. Bailey also opposed the bill as a matter of general policy. Brief speeches were made by Senators Teller, Depew and Lodge. The latter asserted that Cuba had adopted the same immigration laws as those of the United States in regard to Chinese immigration.

House.—The house was in session for a little more than four hours Monday during which time there was a general discussion on varied topics. The pension appropriation bill was before the house but no conclusion on it was reached. The isthmian canal and the republic of Panama, the tariff, tobacco interests and questions affecting labor were debated.

## THREE DISASTROUS FIRES.

Property to the Amount of \$200,000 Destroyed in Rochester, N. Y.

Rochester, N. Y., Dec. 15.—Rochester was visited by three disastrous fires Monday night, the loss probably aggregating over \$200,000. The first was in the Sherwood Shoe Finding factory, loss \$66,000; the second in the Foster American piano factory, loss \$100,000, and the third in the Haines piano factory, loss probably \$35,000. At 1 o'clock the Haines piano factory, another of the four plants in this city operated by the Foster Armstrong Co., was discovered on fire. It is located on Central avenue and North Water street, across the river from the Commercial street plant. The fact that two factories were burning is regarded as very strange and no logical reasons can be advanced at present.

## COLORADO NATIONAL GUARD.

It Appears That It Is To Have No Colored Contingent.

Denver, Colo., Dec. 15.—It appears that Colorado is to have no colored contingent in her national guard. Two companies of colored men had been enlisted and were at the armory Monday night to be mustered in. Col. Bloom was present as mustering officer when "Major" Charles Jones, a colored man, to whose efforts the formation of the companies were largely due, announced that he had learned that Gov. Peabody intended to officer the companies with white men. The colored recruits at once refused to enter the service.

## DID NOT RETURN TO WORK.

The Case Threshing Machine Plant Will Shut Down.

Racine, Wis., Dec. 15.—The 150 molders employed by the Case Threshing Machine Co. did not return to work Monday and it is probable that the entire plant, employing 1,500 men, will be closed down for at least two months.

The men have been out of employment for four months but were expected to resume Monday. The men demand that last year's wages be restored. The scale as fixed by a molding contractor for the company is from one to thirty per cent. lower than the old scale.

## THE MEYERSDALE DISTRICT.

All Organized Men Will Stop Work at Midnight Tuesday.

Meyersdale, Pa., Dec. 15.—Notices were posted Monday by the United Mine Workers at all the mines in the Meyersdale district, where reductions of ten per cent. have been ordered, commanding all organized men to stop work Tuesday at midnight and not to resume unless ordered to do so by the proper officials of the district miners' organization. This order will affect 3,000 men in Somerset county and work in this region will be practically suspended as a result of the order.

Annapolis, Md., Dec. 15.—Funeral services over the remains of the late R. Adm. Bancroft Gherardi, retired, who died at his residence in Stratford, Ct., Thursday, were held in the naval academy chapel Monday.

## REV. DR. THOMAS MARSHALL DEAD.

New York, Dec. 15.—From Olney, I. T., word was received of the sudden death of Rev. Dr. Thomas Marshall, financial secretary of the Presbyterian board of foreign missions. Dr. Marshall was widely known.

## ACCIDENTALLY SHOT HIS CHILD.

St. Louis, Dec. 15.—Ellsworth Tendick, the 7-months-old child of Mr. and Mrs. Louis A. Tendick, died Monday from a wound in the head. It was accidentally shot from a revolver in its father's hands.

## MISS GILLETT'S CREDITORS.

A Meeting Has Been Called For December 31 at Kansas City.

Kansas City, Mo., Dec. 15.—A meeting of creditors of Grant G. Gillett has been called for December 31 in this city. The call, which is signed "committee," intimates that Gillett will attend the meeting in person or have a representative present authorized to make the creditors a proposition looking towards a settlement of the claims held against him, growing out of his failure in the cattle business at Abilene, Kan., a few years ago.

## MISS GILLETT'S LIFE INSURED.

Rising Sun, Ind., Dec. 15.—Those having in charge the investigation of the murder of Elizabeth Gillespie are startled by the news that the dead girl had an insurance policy for \$2,000,

and that her brother James is the beneficiary. The rumor that James would receive the money under the terms of the policy was confirmed by a message from Cincinnati Monday night.

## OPENS THE DOORS.

Missouri Supreme Court Decision Brings Into Question Legality of Many Convictions.

## ALSO HUNDREDS OF ARRESTS.

All Cases Tried on Information Furnished by the Circuit Attorney on His Official Oaths Affected.

A List of the Cases Includes a Majority of the Bootleg Arrests and Convictions in St. Louis—Convicts May Go Free.

St. Louis, Dec. 15.—Notification of a decision of the Missouri supreme court, which brings into question the legality of hundreds of arrests and convictions recently made on informations in St. Louis, and which, according to circuit court attorney, opens the doors of the penitentiary through writs of habeas corpus to many others, was received here Monday by that official.

In the list of cases which, under the ruling of the court, could be affected if the plea of illegal arrest were raised, are the majority of the suburban franchise bootleg convictions. It was stated by a well known lawyer Monday that the statute of limitations in these cases expired last November and that if the present charges against the accused men should be found defective, it would be impossible to bring new indictments against them.

All of the cases are before the supreme court on appeal and the records show that each case was tried on information furnished by the circuit attorney on his official oaths. They follow:

Charles F. Kelly, former speaker of the house of delegates convicted of perjury in connection with the suburban franchise bootleg conviction. It was stated by a well known lawyer Monday that the statute of limitations in these cases expired last November and that if the present charges against the accused men should be found defective, it would be impossible to bring new indictments against them.

John H. Schnettler, bribery suburban franchise, four years. Jere J. Hannigan, bribery, suburban franchise, five years. John A. Sheridan, bribery, suburban franchise, five

PROF. CARROLL D. WRIGHT, Labor Commissioner, predicts the eventual abolition of the wages system, and the substitution of the profit-sharing and co-operative ideas. He says: "The great labor question means the struggle of humanity for a higher standard of life. The employer must consider his employee as well as the stockholder as an investor." There is no question that the profit-sharing system would go a long way towards the settlement of the ever-present clash between capital and labor.

THEY have the race issue in grotesque form in quaint, staid old Boston town, observes the Georgetown News-Democrat. The Republicans held a convention there and nominated a negro for Street Commissioner, an office paying \$4,000 a year. The white Republican candidate for Mayor threatens to resign unless the coon, who was janitor at the court house, is removed from the ticket. The idea of a cultured and educated Boston bean eater running on a ticket with a negro who has never reached a higher round on the ladder of advancement than keeping sawdust fresh in depositaries for old stumps and worn out cuds! If the colored Republicans should take a notion to withdraw and start a party of their own, a number of pivotal States would not go Republican very often.

### PRESIDENT ROOSEVELT

Congratulated on His "Indorsement of the Right of Secession."

LEXINGTON, Ky., December 11.—In the adoption of a resolution by the local Chapter of the Daughters of the Confederacy, the "secession principles" set in vogue by President Roosevelt in the Panama situation were given an open endorsement. One portion reads:

"We extend to the President the hearty thanks of the Daughters of the Confederacy of the State of Kentucky for his indorsement of the principles and his vindication of the cause for which the Southern people fought so gloriously, but so disastrously, in the war between the States."

A fine collection of minerals and clays has been gathered by Mr. W. W. Simmons in and around Nelson county for Kentucky's exhibit at the World's Fair next year.

The smallpox scare at Richmond has reached the stage of an epidemic, and the city schools and private schools were closed Friday by order of the Board of Health. There are now sixty-five cases of the disease in that city, confined principally to the negro population.

Manager Tom Smith of the Jefferson Theatre, Hamilton, O., says in all his theatrical experience, covering fifteen years, he never before endorsed an attraction over his signature, but he writes, "I witnessed the performance of 'A Friend of the Family,' and consider it one of the cleverest and funniest comedies I ever had the pleasure of seeing." With this strong endorsement and with the personal guarantee of the management of the Washington Opera House, you run no risk of being disappointed. See this funny comedy Thursday night. Seats now on sale at Ray's.

### LAST NAIL IS DRIVEN.

Imposing Kentucky Building at World's Fair Ready For Dedication—Best Site For State Edifice.

To say that the Kentucky Building at the Louisiana Purchase Exposition is the most pretentious ever erected to represent the State at either a national or international fair is putting it very mildly. If Kentuckians have been ashamed of their State buildings at former expositions—and there is no denying this fact—the assertion may be made without fear of contradiction that no citizen of the State will look upon the Kentucky Building at the St. Louis World's Fair without feeling proud of his nativity and the building which marks the dawn of a new era in Kentucky's life. When it was stated that the Kentucky Building occupies the most commanding of all State structures on the ground, the writer spoke advisedly. It stands within what is commonly known as the main picture of the great show, while other State buildings are to be found a half mile away on the plateau of States. It, therefore, occupies a position at once the envy and admiration of citizens of sister States.

Sitting well back on a lawn, two hundred feet wide by three hundred and sixty-five feet long, it is at an intersection of two of the main thoroughfares of the exposition, one leading from the Grand Basin by the Palace of Education and the Mines Building to the United States Fisheries, the other by the Government Building and the Metal Pavilion to the terrace of Louisiana Purchase States, the palace of Fine Arts, Festival Hall, the Cascade Gardens and the restaurant pavilions. Can one imagine a more ideal location? Every American citizen holds the Government building as part his and when visiting an exposition, whether for a day or for a month, includes the structure that represents Uncle Sam as many times as possible in his tour of the grounds. To come to the Government Building he must see Kentucky. It may be justly assumed, then, with all these points of vantage, that "The New Kentucky Home" will be seen by more people than any other building of this kind at the fair.

There is no describing the Kentucky Building. It must be seen to have its beauty appreciated. As the architect would say, however, it covers an area 138 feet by 108 feet, including porches and verandas.

The building may be said to be entirely surrounded by porches and verandas. Every side is an imposing entrance, with the front and the rear emphasized by massive porches. To the original plans have been added an attractive stoop as an approach to the front porch. Midway between this stoop and the wide roadway to the southwest of the Mines Building, the lawn takes on the form of a terrace, the beauty of which will be heightened as the blue-grass, nurtured by the snows in winter, peeps through its native soil—two car loads having been transported to St. Louis for this purpose—to await the admiring gaze of the thousands who will pass up the Kentucky asphalt walks to the hospitality of this Kentucky Home.

To the right of this lawn is a cluster of beautiful cedars, which rustic benches and its cooling shade will make an inviting spot to many visitors. The walk leads around the northwest of the building by the rear entrance to the roadway, previously described as running by the Government building to the Palace of Fine Arts, etc. Here at the rear of the building stands several of the large trees that made Forest Park, the seat of the Exposition, famous before it was determined to commemorate, by an exposition, the purchase of the Louisiana territory. Two of these trees seemingly grow up through the porch of the building at the southwest corner. The exposition officials, desiring to preserve, as far as possible, all these monarchs of the forest, would not have consented to have these two trees removed, had the Building Committee of the Kentucky Exhibit Association desired it. They give a touch of nature to the building which is pleasing to the eye.

The C. and O.'s net earnings for October were \$604,186, an increase of \$162,023 over the same month last year. From July 1st the net earnings have been \$2,334,070, an increase of \$858,008.

Thirty-five feet from the rear of the Kentucky Home will be other terraces and steps leading to the lawn upon which is being erected, in the shape of a five-pointed star, the Texas Building.

The Kentucky Building has three floors—the first to be used as a general reception hall, with a hard floor; the second as a ladies' reception hall and the third, with its roof garden over the porches at every side, as a rendezvous for those who desire to study, in birdseye lesson, the beauties of the grounds. In the center of the second and third floors is a light-well with attractive balustrades encircling, giving to the visitor on the first floor, looking up, a magnificent view of the dome, with its many colored glasses. In the center of the reception hall, on the first floor, will be installed exhibits of minerals, forestry, etc. It was at first intended to have a large mosaic map of the State, showing by counties the products and resources, but the Building Committee, at a meeting early this month, decided to abandon the plan of having this map and to give the space in a more effective way to the displays mentioned. These exhibits will probably pierce the light-well of the second floor. It has also been suggested, and may be mentioned in this connection, that the heroic groups, to stand on either side of the front entrance, be chiseled out of Kentucky channel coal. The building, being perfectly white, these groups, in their blackness, as dark as night, would certainly attract attention.

At each corner of the first floor there will be a small room which, with the stairway leading to the second floor, take up the balance of the first. At the northwest end of the second floor are three rooms, so arranged as to be thrown into one large banqueting hall when desired. A small space on the third floor will be reserved as a serving room, with communication with the first and second floors by a dumb waiter. The third floor has been made as open as possible to connect with the outer galleries, formed of the roofs of the porches. The roof above the third floor—the main roof—will also be accessible, and will give the visitor one of the very best views possible of the surrounding grounds. The main picture of the exposition—the one which corresponds in importance to the Court of Honor at the Columbian Exposition at Chicago in 1893—the Cascade Gardens, pouring their millions of gallons of water into the Grand Basin, with Festival Hall silhouetted against the terrace of Louisiana Purchase States, a restaurant pavilion flanking either end, is easily seen from any of the floors of the Kentucky Building.

Festival Hall is the most magnificent pipe organ ever built, one with millions of different tones. Sitting on the porch of the Kentucky Building it will be easy for the visitor to hear this wonderful organ. While in St. Louis the early part of this month arranging details as to the programme for Kentucky Day, Thursday, June 2, 1904, the delegation representing the Kentucky Exhibit Association called on Col. E. C. Culp, secretary of the Committee on Ceremonies, who volunteered to turn over to the Exhibit Association Festival Hall for the night of June 2, and to arrange a programme of music to suit the fancy of the Kentuckian and to be executed on the wonderful instrument installed there.

### "CLAN IRVINE."

Resident of Washington Receives Interesting Document From Commander of Scottish Light Horse.

Under date of Dec. 1, 1903, Mr. James Irvine, of Washington, this county, is in receipt of a letter from Col. J. B. Irvine, Commander of the Scottish Light Horse and Chieftain of "Clan Irvine," giving a brief history of this Clan of Borderers since 1004.

Mr. Irvine as a clansman also received from his Chieftain a photograph of their stronghold, Bonshaw Tower, in Dumfriesshire, Scotland, which shows the fortress just as it appeared in the days of Robert the Bruce, and which afforded that Monarch timely shelter when he was in sore straits after his defeat by Edward Longshanks. Its walls are six feet through, and there the Chieftains of the Clan have lived and ruled in unbroken line all these years since 1004.

Adj't. Gen. Haley has prepared an order to the members of the State Guard of Kentucky regarding the care of clothing, guns and other equipment committed to their care. Under the Dick militia bill all of these supplies, \$27,000 worth of which are sent to Kentucky every year, are charged to the account of the Governor, and he is responsible to the United States government for them. In the past some of the soldiers have sold their uniforms and guns, and the letter of instructions is intended to remedy this evil.

The suit of Haughey against Hughes over the value of four hogs was decided in the Circuit Court Monday, the jury awarding Haughey a verdict for \$25, with \$50 damages. The parties live near Fern Leaf. The case has been fought through the Justice's Court, the Quarterly Court and the Circuit Court, and the costs also fall on Mr. Hughes. Sallee & Slattery represented Haughey while Judge L. W. Robertson and Judge Whitaker appeared for Hughes.

The C. and O.'s No. 1 pulled in forty minutes late this morning, and just before it arrived, the yard engine left the rails as it was shifting the dining car at the station. The car also jumped the track, delaying the train for an hour or two.

# Double and Triple-Plated Forks and Spoons

That have been in the house more than ten years. They were made in the good old days when an honest manufacturers trade mark amounted to something and before the high-handed trusts fixed prices to suit their own sweet will. They bear a selling mark of \$3.50 and \$4 per set, which would be considered very cheap for goods of such quality now. There are not many of these Forks and Spoons, and what we have are the best in our show window. None will go back to our shelves, because they will be sold quick at \$1, \$1.50 and \$2 A SET.
